The Journal of Infectious Diseases

VOLUME 106, JANUARY-JUNE 1960

TABLE OF CONTENTS

No. 1, JANUARY–FEBRUARY, 1960

PAGE

Note to contributors to the *Journal of Infectious Diseases* 1

C. E. DOLMAN, MARIA TOMSICH, C. C. R. CAMPBELL AND W. B. LAING. Fish eggs as a cause of human botulism. Two outbreaks in British Columbia due to types E and B botulinus toxins 5

GEORGE J. JACKSON. Fluorescent antibody studies of *Nippostrongylus muris* infections 20

J. THOMAS GRAYSTON, SAN-PIN WANG AND PAUL B. JOHNSTON. Asian influenza in Taiwan—1958 37

LEVON A. TERZIAN AND N. STAHLER. Some inorganic acids, bases and salts as determinants of innate immunity in the mosquito 45

LARS KARSTAD, SRIKRISHNA VADLAMUDI, R. P. HANSON, D. O. TRAINER, JR. and V. H. LEE. Eastern equine encephalitis studies in Wisconsin 53

STEWART A. KOSER, ELEANOR HODGES, ILSE TRIBBY AND JOAN T. STUEDELL. Growth of lactobacilli in association with *Candida albicans* 60

CHANG-LING LEE AND ROBERT M. LEWERT. The distribution of various reactants in human anti-*Schistosoma mansoni* serums fractionated by starch electrophoresis 69

A. L. OLITZKI, D. SULITZEANU, A. ARNAN AND G. RASOOLY. Observations on men vaccinated with a streptomycin dependent brucella strain 77

H. BERNKOPF, M. NISHMI, B. MAYTHAR AND I. FEITELBERG. Darkfield agglutination of fluorocarbon-treated trachoma virus by serums of trachoma patients and immunized rabbits 83

ANTHONY L. LUZZIO. Effects of X rays on antibodies 87

JOHN W. OSEBOLD AND DAVID M. GRAY. Disseminated staphylococcal infections in wild jack rabbits (*Lepus californicus*) 91

TERESA I. MERCADO AND THEODOR VON BRAND. Histochemical studies of liver glycogen and lipid in some parasitic infections 95

R. W. DARLINGTON AND M. SCHERAGO. The in vitro sensitivity to brucellergen of leucocytes from guinea pigs experimentally infected with *Brucella abortus* 106

No. 2, MARCH–APRIL, 1960

W. J. FAHLBERG AND JUDITH MARSTON. Coagulase production by *Staphylococcus aureus*. I. Factors influencing coagulase production 111

JUDITH MARSTON AND W. J. FAHLBERG. Coagulase production by *Staphylococcus aureus*. II. Growth and coagulase production in complex and chemically defined mediums—comparison of chemically defined mediums 116

AVIVAH ZUCKERMAN. Blood loss and replacement in plasmodial infections. III. *Plasmodium cynomolgi*, *Plasmodium gonderi* and *Plasmodium knowlesi* in *Macaca mulatta mulatta*, the rhesus monkey 123

MODESTO SCHARYJ, NATHAN LEVENE, AND HAROLD GORDON. Primary pulmonary infection with *Monosporium apiospermum*. Report of a case with clinical, pathologic and mycologic data 141

GLEN R. GALE. Gas exchange in *Rhizopus oryzae* 149

J. R. SCHMIDT AND A. F. RASMUSSEN, JR. Activation of latent herpes simplex encephalitis by chemical means 154

J. A. CAMERON, D. F. HOLTMAN, AND C. D. JEFFRIES. The association of virulence with endotoxin in *Salmonella pullorum* 159

PAGE

KÅRE LINDQVIST. A neisseria species associated with infectious keratoconjunctivitis of sheep—*Neisseria ovis* Nov. Spec. ... 162

LAWRENCE M. BUGBEE, ARTHUR A. LIKE, AND ROBERT B. STEWART. The effects of cortisone on intradermally induced vaccinia infection in rabbits ... 166

C. W. FISHEL, N. A. VEDROS, AND M. V. ROTHLAUF. Serologic and fractionation studies of C-reactive protein ... 174

L. JOE BERRY AND CARLOS BEUZEVILLE. The effect of delayed injections of tricarboxylic acid cycle inhibitors and reticuloendothelial "blocking" agents on *Salmonella typhimurium* infection in mice ... 183

SAMI A. MAYYASI, VICTOR SLOTNICK, AND ARTHUR BROWN. The adaptation of Venezuelan equine encephalomyelitis virus to cell cultures derived from monkey brain ... 193

DOROTHY I. CLEMMER, JOHN L. S. HICKEY, JOAN F. BRIDGES, DONALD J. SCHLIESSMANN, AND MORRIS F. SHAFFER. Bacteriologic studies of experimental air-borne salmonellosis in chicks ... 197

YOSHIHIRO YAMAMURA, ALBERT WALTER, AND HUBERT BLOCH. Bacterial populations in experimental murine tuberculosis. I. Studies in normal mice 211

HUBERT BLOCH, YOSHIHIRO YAMAMURA, AND ALBERT WALTER. Bacterial populations in experimental murine tuberculosis. II. Studies in vaccinated mice 223

NO. 3, MAY–JUNE, 1960

GERDA W. PIRSCH, WILLIAM C. DAY, AND NICHOLAS L. POLLOK, III. Dihydrostreptomycin aerosol therapy for *Pasteurella tularensis* infected guinea pigs 231

HERMAN C. ELLINGHAUSEN, JR. Some observations on cultural and biochemical characteristics of *Leptospira pomona* ... 237

ROGER W. REED AND BALLEM H. MATHESON. Experimental nephritis due to type specific streptococci. IV. The effect of type 12 nephrotoxin in monkeys 245

WILLARD C. SCHMIDT. Type-specific antibody formation in man following injection of streptococcal M protein ... 250

B. S. MALIK AND C. M. SINGH. Studies on staphylococci with particular reference to strains from bovine udder. VIII. Serological typing and its comparison with phage typing ... 256

STUART D. SLEIGHT, ROBERT F. LANGHAM, AND RAYMOND L. MORTER. Experimental leptospirosis: The early pathogenesis of *Leptospira pomona* infection in young swine ... 262

PATRICK COLLARD AND RANJIT SEN. Serotypes of salmonella at Ibadan, Nigeria, with special note of the new serotypes isolated in Nigeria ... 270

FELIKS PRZESMYCKI, ZOFIA TAYTSCH, ZOFIA WRÓBLEWSKA, AND JÁDWIGA LACHMAYER. Investigation of a natural focus of encephalitis in the "Puszcza Białowieska" national park ... 276

CHIA-TUNG PAN. Studies on the monoxenic cultivation of *Entamoeba histolytica* with hemoflagellates ... 284

THEODORE G. YERASIMIDES. Isolation of a new strain of feline pneumonitis virus from a domestic cat ... 290

EUGENE D. ROSENBLUM AND CLIFTON E. DOWELL. Lysogeny and bacteriophage typing in coagulase positive staphylococci ... 297

MARION JONES. Enteropathogenic *Escherichia coli* from specimens of non-fecal origin ... 304

Index ... 311

GENERAL INDEX, 106, NO. 1, 2, AND 3 (1960)

Agglutination, darkfield, of trachoma virus, 83
Antibodies, as affected by X rays, 87
Antibody, fluorescent, in *Nippostrongylus muris* infections, 20
Antibody formation in man after injection of streptococcal M protein, 250
Arnan, A. See Olitzki

Bacteriophage typing in coagulase positive staphylococci, 298
Bernkopf, H., M. Nishmi, B. Maythar and I. Feitelberg. Darkfield agglutination of fluorocarbon-treated trachoma virus by serums of trachoma patients and immunized rabbits, 83
Berry, L. J., and C. Beuzeville. The effect of delayed injections of tricarboxylic acid cycle inhibitors and reticuloendothelial "blocking" agents on *Salmonella typhimurium* infection in mice, 183
Beuzeville, C. See Berry
Bloch, H. See Yamamura
Bloch, H., Y. Yamamura and A. Walter. Bacterial populations in experimental murine tuberculosis. II. Studies in vaccinated mice, 223
Blood loss and replacement in plasmodial infections, 123
Botulism, human, caused by fish eggs, 5
Bridges, J. F. See Clemmer
Brown, A. See Mayyasi
Brucella abortus, leucocytic sensitivity of brucellergen in, 106
Brucella, vaccination with a streptomycin dependent strain, 77
Brucellergen, sensitivity of leucocytes in *Brucella abortus* infection, 106
Bughee, L. M., A. A. Like and R. B. Stewart. The effects of cortisone on intradermally induced vaccinia infection in rabbits, 166

Cameron, J. A., D. F. Holtman and C. D. Jeffries. The association of virulence with endotoxin in *Salmonella pullorum*, 159
Campbell, C. C. R. See Dolman
Candida albicans, growth in association with lactobacilli, 60
Cell culture of monkey brain for encephalomyelitis virus, 193
Clemmer, D. I., J. L. S. Hickey, J. F. Bridges, D. J. Schliessmann and M. F. Shaffer. Bacteriologic studies of experimental air-borne salmonellosis in chicks, 197
Coagulase production by *Staphylococcus aureus*, 111, 116
Collard, P., and R. Sen. Serotypes of salmonella at Ibadan, Nigeria, with special note of the new serotypes isolated in Nigeria, 270
Cortisone, its effects on vaccinia infection in rabbits, 166

Darlington, R. W., and M. Scherago. The in vitro sensitivity to brucellergen of leucocytes from guinea pigs experimentally infected with *Brucella abortus*, 106
Day, W. C. See Pirsch
Dihydrostreptomycin aerosol therapy for *Pasteurella tularensis* infected guinea pigs, 231
Dolman, E. E., M. Tomsich, C. C. R. Campbell and W. B. Laing. Fish eggs as a cause of human botulism. Two outbreaks in British Columbia due to types E and B botulinus toxins, 5
Dowell, C. E. See Rosenblum

Electrophoresis, starch, effect on *Schistosoma mansoni* antiserums, 69
Ellinghausen, H. C., Jr. Some observations on cultural and biochemical characteristics of *Leptospira pomona*, 237
Encephalitis, a natural focus in a national park, 276
  eastern equine, in Wisconsin, 53
  herpes simplex, activated chemically, 154
Encephalomyelitis, Venezuelan equine, adapted to cell culture from monkey brain, 193
Endotoxin, as associated with virulence in *Salmonella pullorum*, 159
Entamoeba histolytica, monoxenic cultivation with hemoflagellates, 284
Escherichia coli from specimens of non-fecal origin, 304

Fahlberg, W. J., and J. Marston. Coagulase production by *Staphylococcus aureus*. I. Factors influencing coagulase production, 111
Fahlberg, W. J. See Marston
Feitelberg, I. See Bernkopf
Fish eggs as a cause of human botulism, 5
Fishel, C. W., N. A. Vedros and M. V. Rothlauf. Serologic and fractionation studies of C-reactive protein, 174

Gale, G. R. Gas exchange in *Rhizopus oryzae*, 149
Gas exchange in *Rhizopus oryzae*, 149
Gordon, H. See Scharyj
Gray, D. M. See Osebold
Grayston, J. T., S.-P. Wang and P. B. Johnston. Asian influenza in Taiwan—1958, 37

Hanson, R. P. See Karstad
Herpes simplex encephalitis activated chemically, 154
Hickey, J. L. S. See Clemmer
Hodges, E. See Koser
Holtman, D. F. See Cameron

Immunity, innate, in the mosquito, 45
Influenza, Asian, in Taiwan, 37

Jackson, G. J. Fluorescent antibody studies of *Nippostrongylus muris* infections, 20
Jeffries, C. D. See Cameron
Johnston, P. B. See Grayston
Jones, M. Enteropathogenic *Escherichia coli* from specimens of non-fecal origin, 304

Karstad, L., S. Vadlamudi, R. P. Hanson, D. O. Trainer, Jr. and V. H. Lee. Eastern equine encephalitis studies in Wisconsin, 53
Keratoconjunctivitis, associated with a neisseria species, 162
Koser, S. A., E. Hodges, I. Tribby and J. T. Stuedell. Growth of lactobacilli in association with *Candida albicans*, 60

Lachmayer, J. See Przesmycki
Lactobacilli, growth in association with *Candida albicans*, 60
Laing, W. B. See Dolman
Langham, R. F. See Sleight
Lee, C.-L., and R. M. Lewert. The distribution of various reactants in human anti-*Schistosoma mansoni* serums fractionated by starch electrophoresis, 69
Lee, V. H. See Karstad
Leptospira pomona, cultural and biochemical characteristics, 237
Leptospirosis, experimental, in young swine, 262
Levene, N. See Scharyj
Lewert, R. M. See Lee, C.-L.
Like, A. A. See Bughee
Lindqvist, K. A neisseria species associated with infectious keratoconjunctivitis of sheep—*Neisseria ovis* Nov. Spec., 162
Liver glycogen, histochemical studies in parasitic infections, 95
Luzzio, A. J. Effects of X rays on antibodies, 87

Malik, B. S., and C. M. Singh. Studies on staphylococci with particular reference to strains from bovine udder. VIII. Serological typing and its comparison with phage typing, 255
Marston, J., and W. J. Fahlberg. Coagulase production by *Staphylococcus aureus*. II. Growth and coagulase production in complex and chemically defined mediums—comparison of chemically defined mediums, 116
Marston, J. See Fahlberg
Matheson, B. H. See Reed
Maythar, B. See Bernkopf
Mayyasi, S. A., V. Slotnick and A. Brown. The adaptation of Venezuelan equine encephalomyelitis virus to cell cultures derived from monkey brain, 193
Mercado, T. I., and T. von Brand. Histochemical studies of liver glycogen and lipid in some parasitic infections, 95
Monosporium apiospermum, pulmonary infection with, 141
Morter, R. L. See Sleight

Neisseria ovis, new species associated with keratoconjunctivitis, 162
Nephritis, experimental, due to type specific streptococci, 245
Nippostrongylus muris infections, fluorescent antibody studies in, 20
Nishmi, M. See Bernkopf
Note to contributors to the *Journal of Infectious Diseases*, 1

Olitzki, A. L., D. Sulitzeanu, A. Arnan and G. Rasoolv. Observations on men vaccinated with a streptomycin dependent brucella strain, 77
Osebold, J. W., and D. M. Gray. Disseminated staphylococcal infections in wild jack rabbits (*Lepus californicus*), 91

Pan, C. Studies on the monoxenic cultivation of *Entamoeba histolytica* with hemoflagellates, 284
Parasitic infection, histochemical studies of liver glycogen in, 95
Pasteurella tularensis, dihydrostreptomycin aerosol therapy for, 231
Pirsch, G. W., W. C. Day and N. L. Pollok III. Dihydro-

streptomycin aerosol therapy for *Pasteurella tularensis* infected guinea pigs, 231
Plasmodial infections, blood loss and replacement in the rhesus monkey, 123
Pneumonitis virus, feline, new strain, 290
Pollok, N. L., III. See Pirsch
Protein, C-reactive, serologic and fractionation studies, 174
Przesmycki, F., Z. Taytsch, Z. Wróblewska and J. Lachmayer. Investigation of a natural focus of encephalitis in the "Puszcza Białowieska" national park, 276
Pulmonary infection with *Monosporium apiospermum*, 141

Rasmussen, A. F., Jr. See Schmidt
Rasooly, G. See Olitzki
Reed, R. W., and B. H. Matheson. Experimental nephritis due to type specific streptococci, 245
Rhizopus oryzae, gas exchange in, 149
Rosenblum, E. D., and C. E. Dowell. Lysogeny and bacteriophage typing in coagulase positive staphylococci, 297
Rothlauf, M. V. See Fishel

Salmonella pullorum, virulence and endotoxin in, 159
Salmonella, serotypes in Nigeria, 270
Salmonella typhimurium infection, effect of tricarboxylic acid cycle inhibitors and reticuloendothelial "blocking" agents on, 183
Salmonellosis, air-borne, in chicks, 197
Scharyj, M., N. Levene and H. Gordon. Primary pulmonary infection with *Monosporium apiospermum*. Report of a case with clinical, pathologic and mycologic data, 141
Scherago, M. See Darlington
Schistosoma mansoni, antiserums fractionated by starch electrophoresis, 69
Schliesmann, D. J. See Clemmer
Schmidt, J. R., and A. F. Rasmussen, Jr. Activation of latent herpes simplex encephalitis by chemical means, 154
Schmidt, W. C. Type-specific antibody formation in man following injection of streptococcal M protein, 250
Sen, R. See Collard
Shaffer, M. F. See Clemmer
Singh, C. M. See Malik
Sleight, S. D., R. F. Langham and R. L. Morter. Experimental leptospirosis: The early pathogenesis of *Leptospira pomona* infection in young swine, 262
Slotnick, V. See Mayyasi
Stahler, N. See Terzian
Staphylococcal infections in jack rabbits, 91
Staphylococci, coagulase positive, lysogeny and bacteriophage typing in, 297
strains from bovine udder, 256
Staphylococcus aureus, coagulase production by, 111, 116
Stewart, R. B. See Bugbee
Streptococcal M protein, effects of injection in man, 250
Streptococci, in experimental nephritis, 245
Stuedell, J. T. See Koser
Sulitzeanu, D. See Olitzki

Taytsch, Z. See Przesmycki
Terzian, L. A., and N. Stahler. Some inorganic acids, bases and salts as determinants of innate immunity in the mosquito, 45
Tomsich, M. See Dolman
Trachoma virus, agglutination of, 83
Trainer, D. O., Jr. See Karstad
Tribby, I. See Koser
Tricarboxylic acid cycle inhibitors, effect on *Salmonella typhimurium* infection in mice, 183
Tuberculosis, murine, bacterial populations in, 211, 223

Vaccinia infection in rabbits, as affected by cortisone, 166
Vaccination of humans with a streptomycin dependent brucella strain, 77
Vadlamudi, S. See Karstad
Vedros, N. A. See Fishel
von Brand, T. See Mercado

Walter, A. See Bloch; Yamamura
Wang, S.-P. See Grayston
Wróblewska, Z. See Przesmycki

X rays, effects on antibodies, 87

Yamamura, Y., A. Walter and H. Bloch. Bacterial populations in experimental murine tuberculosis. I. Studies in normal mice, 211
Yamamura, Y. See Bloch
Yerasimides, T. G. Isolation of a new strain of feline pneumonitis virus from a domestic cat, 290

Zuckerman, A. Blood loss and replacement in plasmodial infections. III. *Plasmodium cynomolgi*, *Plasmodium gonderi* and *Plasmodium knowlesi* in *Macaca mulatta mulatta*, the rhesus monkey, 123

The Journal of Infectious Diseases

Founded 1904 by the John Rockefeller McCormick Memorial Institute for Infectious Diseases
under the Editorship of LUDVIG HEKTOEN and EDWIN O. JORDAN

EDITED BY
JAMES W. MOULDER

Advisory Editors

The Journal of Infectious Diseases

VOLUME 107, JULY-DECEMBER 1960

TABLE OF CONTENTS

No. 1, July–August, 1960

PAGE

Ross S. Benham, Isabelle Havens and Jerome J. Landy. Respiratory flora of hospital-related populations 1

William Bloom. A note on osteogenesis by myeloid reticular cells 11

Dan H. Campbell and Justine S. Garvey. Factors involved in antibody formation 15

William Cantrell. The pattern of antigenic variation in *Trypanosoma equiperdum* 29

Laurence R. Draper. The hemolysin response in rabbits immunized during low-level cobalt-60 gamma irradiation 34

J. S. Ingraham and H. O. Foley. The formation of antibody homologous to the sulfanilazo group: The response to sulfanilazo-sheep red cell stromata and the effect of X irradiation in rabbits 43

Bernard N. Jaroslow. Factors associated with initiation of the immune response 56

Irving G. Kagan. Trichinosis: A review of biologic, serologic and immunologic aspects 65

José Oliver-González. Histopathological and immunological observations after inoculation of substances isolated from the muscle and cuticle of *Ascaris lumbricoides* 94

Tulio Pizzi and William H. Taliaferro. A comparative study of protein and nucleic acid synthesis in different species of trypanosomes 100

Dieter H. Süssdorf. Repopulation of the spleen of X-irradiated rabbits by tritium-labeled lymphoid cells of the shielded appendix 108

David W. Talmage with the technical assistance of William Cheng. The kinetics of the reaction between antibody and bovine serum albumin using the Farr method 115

Avivah Zuckerman. Blood loss and replacement in plasmodial infections. IV. *Plasmodium gallinaceum* and *Plasmodium lophurae* in untreated and prebled mature chickens and in untreated chicks 133

No. 2, September–October 1960

Francisco Biagi F., Ana Maria Payán, Graciela Cuenca and Julio César Hernández-Chiñas. Value of a skin test and precipitin reaction in diagnosis of ascariasis 149

Philip F. Milvey, Jr. The uptake and fate of radioactive elements in *Trypanosoma equiperdum* 155

F. H. Tai, J. T. Grayston, P. B. Johnston and R. L. Woolridge. Adenovirus infections in Chinese army recruits on Taiwan 160

Irving G. Kagan and Lois Norman. Immunologic studies on *Trypanosoma cruzi*. I. Susceptibility of CFW stock mice for the "Tulahuen" strain of *T. cruzi* 165

Lois Norman and Irving G. Kagan. Immunologic studies on *Trypanosoma cruzi*. II. Acquired immunity in mice infected with avirulent American strains of *T. cruzi* 168

Richard Berk, Eric L. Nelson and M. J. Pickett. Studies on mechanisms of cellular immunity. I. Observations on the metabolism of mouse monocytes 175

Richard Berk, Eric L. Nelson and M. J. Pickett. Studies on mechanisms of cellular immunity. II. Observations on the interaction of *Pseudomonas aeruginosa* with various mammalian cells and fluids 183
W. J. Hausler, Jr. and Elliot C. Dick. The purification and concentration of influenza A virus (PR8) by a method of continuous extraction with glycine of a zinc-virus precipitate 189
Gwendolyn M. Woodroofe and James W. Moulder. Penicillin-insensitive and non-neutralizable variants of feline pneumonitis virus 195
Margaret F. Lenahan and Herbert A. Wenner. Propagation of entero- and other viruses in renal cells obtained from non-primate hosts 203
Albert M. Walter, Hinrich Otten, Yoshihiro Yamamura and Hubert Bloch. Bacterial populations in experimental murine tuberculosis. III. Chemotherapeutic studies 213
Kenneth L. Burdon and Reuben D. Wende. On the differentiation of anthrax bacilli from *Bacillus cereus* 224
Leo A. Thomas and Carl M. Eklund. Use of the complement fixation test as a diagnostic aid in Colorado tick fever 235
Willy Burgdorfer and David Lackman. Identification of *Rickettsia rickettsii* in the wood tick, *Dermacentor andersoni*, by means of fluorescent antibody 241
Earl J. Mason and Nathan Kaufman. The relationship between viral reproduction and cytotoxicity of Newcastle disease virus and influenza virus (PR8) in three cell strains 245

No. 3, November–December, 1960

Stephan F. Barnett. Connective tissue reactions in acute fatal East coast fever (*Theileria parva*) of cattle 253
Julius E. Officer and Arthur Brown. Growth of psittacosis virus in tissue culture 283
Manuel Roca-Garcia, Ernest V. Orsi, George A. Jervis, Floyd S. Markham, Juan C. Bacigalupi, Hanna Doany, Hector Tosi, Victor J. Cabasso, Arden W. Moyer and Herald R. Cox. Laboratory studies associated with field trials of monovalent oral poliovirus vaccines 300
Harold C. Woodworth and David Weinman II. Studies on the toxin of toxoplasma (toxotoxin) 318
Reuben L. Kahn, Sun Hyoo Kim, Arthur C. Curtis and Charles S. Simons. X irradiation and toxin neutralization by antitoxin 325
Erwin Neter, Hiroshi Anzai and Eugene A. Gorzynski. The effects of staphylococcal extract and of viable staphylococci on dermal reactivity of the rabbit to epinephrine 332
William H. Taliaferro and Bernard N. Jaroslow. The restoration of hemolysin formation in X-rayed rabbits by nucleic acid derivatives and antagonists of nucleic acid synthesis 341
Harold S. Goodman and Lillian Masaitis. The complement-fixing properties of γ_1 and γ_2 rabbit anti-sheep hemolytic antibodies 351
J. R. Schmidt and A. F. Rasmussen, Jr. The influence of environmental temperature on the course of experimental herpes simplex infection 356
Bernice E. Eddy, Gerald S. Borman, Ruth L. Kirschstein and Robert H. Touchette. Neoplasms in guinea pigs infected with SE polyoma virus 361
Ian M. Smith, Ann P. Wilson, Elia Ch. Hazard, William K. Hummer and Mary E. Dewey. Death from staphylococci in mice 369
Willy Burgdorfer and Carl M. Eklund. Colorado tick fever. I. Further ecological studies in western Montana 379
Willy Burgdorfer. Colorado tick fever. II. The behavior of Colorado tick fever virus in rodents 384
R. Carl Millican and John D. Rust. Efficacy of rabbit pseudomonas antiserum in experimental *Pseudomonas aeruginosa* infection 389

J. C. Holper, L. F. Miller, Y. Crawford, J. C. Sylvester and G. S. Marquis, Jr. Further studies on multiplication, serology and antigenicity of 2060 and JH viruses 395
Hans H. Gadebusch. Specific degradation of *Cryptococcus neoformans* 3723 capsular polysaccharide by a microbial enzyme. II. Biological activity of the enzyme 402
Hans H. Gadebusch. Specific degradation of *Cryptococcus neoformans* 3723 capsular polysaccharide by a microbial enzyme. III. Antibody stimulation by partially decapsulated cells 406
R. Barclay McGhee. An auto-immune reaction produced in ducklings in response to injections of duck embryo blood infected with *Plasmodium lophurae* 410
Index 419

GENERAL INDEX, 107, NO. 1, 2 AND 3 (1960)

Adenovirus infections in Chinese army recruits on Taiwan 160
Antibody, kinetics of reaction with bovine serum albumin, 115
Antibody formation
  effect of cobalt-60 irradiation on, 34
  factors associated with initiation of, 56
  factors involved in, 15
  restoration in X-rayed animals by nucleic acid derivatives and inhibitors of nucleic acid synthesis, 341
  synthesis of antibody homologous to the sulfanilazo group, 43
Anzai, H. See Neter
Ascariasis, immune reactions in diagnosis of, 149
Ascaris lumbricoides, histopathological and immunological observations after inoculation of substances from muscle and cuticle, 94

Bacigalupi, J. C. See Roca-Garcia
Bacillus anthracis, differentiation from *B. cereus*, 224
Barnett, S. F. Connective tissue reactions in acute fatal East coast fever (*Theileria parva*) of cattle, 253
Benham, R. S., I. Havens and J. J. Landy. Respiratory flora of hospital-related populations, 1
Berk, R., E. L. Nelson and M. J. Pickett. Studies on mechanisms of cellular immunity
  I. Observations on the metabolism of mouse monocytes, 175
  II. Observations on the interaction of *Pseudomonas aeruginosa* with various mammalian cells and fluids, 183
Biagi F., F., A. M. Payán, G. Cuenca and J. C. Hernandez-Chiñas. Value of a skin test and precipitin reaction in diagnosis of ascariasis, 149
Bloch, H. See Walter
Bloom, W. A note on osteogenesis by myeloid reticular cells, 11
Borman, G. S. See Eddy
Brown, A. See Officer
Burdon, K. L., and R. D. Wende. On the differentiation of anthrax bacilli from *Bacillus cereus*, 224
Burgdorfer, W. Colorado tick fever. II. The behavior of Colorado tick fever virus in rodents, 384
Burgdorfer, W., and C. M. Eklund. Colorado tick fever. I. Further ecological studies in western Montana, 379
Burgdorfer, W. and D. Lackman. Identification of *Rickettsia rickettsii* in the wood tick, *Dermacentor andersoni*, by means of fluorescent antibody, 241

Cabasso, V. J. See Roca-Garcia
Campbell, D. H. and J. S. Garvey. Factors involved in antibody formation, 15
Cantrell, W. The pattern of antigenic variation in *Trypanosoma equiperdum*, 29
Colorado tick fever
  behavior in rodents, 384
  complement fixation test in diagnosis of, 235
  ecological studies on, 379
Cox, H. R. See Roca-Garcia
Crawford, V. See Holper
Cryptococcus neoformans
  antibody stimulation by partially decapsulated cells of, 405
  enzyme for degradation of capsule of, 402
Cuenca, G. See Biagi F.
Curtis, A. C. See Kahn

Dewey, M. E. See Smith
Dick, E. C. See Hausler
Doany, H. See Roca-Garcia
Draper, L. R. The hemolysin response in rabbits immunized during low-level cobalt-60 gamma irradiation, 34

East coast fever of cattle, connective tissue reactions in, 253
Eddy, B. E., G. S. Borman, R. L. Kirschstein and R. H. Touchette. Neoplasms in guinea pigs infected with SE polyoma virus, 361
Eklund, C. M. See Burdorfer. Also, see Thomas
Enteroviruses, propagation in nonprimate renal cells, 203

Feline pneumonitis, variants of, 195
Foley, H. O. See Ingraham

Gadebusch, H. H. Specific degradation of *Cryptococcus neoformans* 3723 capsular polysaccharide by a microbial enzyme
  II. Biological activity of the enzyme, 402
  III. Antibody stimulation by partially decapsulated cells, 406
Garvey, J. S. See Campbell
Goodman, H. S. and L. Masaitis. The complement-fixing properties of γ_1 and γ_2 rabbit anti-sheep hemolytic antibodies, 351
Gorzynski, E. A. See Neter
Grayston, J. T. See Tai

Hausler, W. J., Jr. and E. C. Dick. Purification and concentration of influenza A virus (PR8) by a method of continuous extraction with glycine of a zinc-virus precipitate, 189
Havens, I. See Benham
Hazard, E. C. See Smith
Hemolytic antibodies, complement-fixing properties of, 351
